

ABSTRACT

Mounting bracket for mounting a wheel unit or other device on the ski of a snowmobile. A base plate of the mounting bracket attaches to the bottom of the ski with the same fastener that fastens a carbide runner to the bottom of the ski. A mounting section has mounting holes or brackets and extends along the outside of the side wall of the ski. The wheel unit is affixable to the mounting bracket, making it easier to retrofit a wheel unit onto a ski having carbide-runner posts in the bottom of the ski.
